Suisse Screen

The Suisse typeface forms the centerpiece of the Swiss Typefaces library. Comprised of 6 collections with a total of 61 styles, Suisse is a utilitarian font set that covers all basic needs of the contemporary typographer, from Suisse Int'l, the go-to Grotesk with its monospaced and condensed companions, to the sturdy text serif Suisse Works, the clear-cut sans serif Suisse Screen, and the reliable slab serif Suisse Neue. Suisse combines classic style with cutting edge design quality and the most user-friendly license.

File Formats

Available desktop font formats: OpenType/CFF (.otf extension), TrueType (.ttf extension)

We offer WebS, WebM and WebXL webfont files subsets. You will find them all in your package:
– WebS is a reduced and lighter font file suitable for most common web usages, containing only the Latin alphabet (without alternates, ligatures and OpenType features).
– WebM is the WebS subset + Cyrillic alphabet (Suisse Int'l only) (without alternates, ligatures and OpenType features).
– WebXL is the complete font file containing all characters and languages (Latin, Cyrillic, Arabic (Suisse Int'l only)), including the many available only with OpenType functions and therefore not fully supported by all web browsers.

Available webfonts formats: .woff2, .woff, .eot, .ttf, .svg

The webfonts are manually optimized for ClearType rasterizers and above (DirectWrite), using TrueType hinting in vertical directions.

Available formats for App, EPUB, Broadcasting OpenType/CFF (.OTF extension)
